## REMARKABLE SCENE OCCURS AT FUNERAL

Pasadena, Calif., July 31.—A remarkable scene was enacted at the funeral here yesterday of Frederick Fackner, a veteran of the Civil war, when Mrs. Florence Grange appeared at the service wearing a black dress and a black veil, and she was permitted to view the body, just as the lid of the coffin was about to be placed upon it.

"That is my father," she exclaimed, as she gazed upon the features of the dead man.

The woman then told of having read of the accidental death of Fackner and of having come to investigate, in the belief that the man might be her father, whom she had not seen for thirty years.

With her husband, Mrs. Grange lives in Brooklyn, N. Y. Two weeks ago she came to California and has been staying in Los Angeles. A woman who had been a housekeeper for Fackner, had claimed his estate, amounting in value to about \$1,000, but the daughter will now lay claim to it.

## IDAHO PLACES STATUE IN STATUARY HALL

Washington, July 31.—Idaho is the fourth state west of the Mississippi to avail itself of the privilege of placing a statue of one of its distinguished citizens in statuary hall of the capitol. The memory of Hon. George L. Shoup, who was a pioneer of the state, the last territorial governor, the first governor after the state was admitted and who was also one of the first two United States senators, will be perpetuated in marble, his statue having just reached the capitol from Rome, Italy, and is now awaiting erection in statuary hall.

The statue of the late Senator Shoup, together with the statues of general Washington and Robert E. Lee, which have been presented by the state of Virginia will be unveiled with appropriate ceremonies at the next session of congress.

Tokio, July 31.—News has been received of a terrible flood in the province of Changchun, Manchuria. In the city of Kirin, situated at the head of a steam navigation on the River Sungari, 225 miles from the mouth, 1,000 people have been drowned and 7,000 houses submerged. The water is still rising.

Rain water is the best to use in motor boat and automobile radiators; that from other sources too often leaves an objectionable deposit.

## WHAT WERE WATERWORKS LOSSES FOR SIX MONTHS?

Prominent Business Man Says the Waterworks Department Must Set Aside Sufficient Each Year to Pay Off the Mortgage and Also Another Sum to Rebuild the Plant Or for Depreciation, and That the City Will Be Bankrupt If the Waterworks Cannot Do That.

A prominent business man wants to know how much money has been placed in a sinking fund to pay off the waterworks mortgage? Nothing. Another wants to know how much has been set aside for depreciation or to rebuild the system? Nothing. Our business men should not expect the present city government to conduct the waterworks as they would their own business because the mortgage bonds will not be due for twenty years.

**Total Expenditures for all purposes for the waterworks. \$42,335.74**  
**Actual cash receipts for water rentals and waterworks supplies 32,248.19**

**Actual loss for six months \$10,087.55**

The Evening Standard offers to give the Criticism Home \$100 if the city administration can show that the above statement is not substantially correct.

The manager of this paper will treat the whole city administration to a lunch at the Weber Club if the city government can prove from its own reports that the waterworks has made a single dollar profit during the first six months of this year, after paying for all claims against the system.

This paper will wager \$500 with any city official that the disbursements for, and on account of the waterworks, were even more than \$42,335.74 and that the water rental receipts for the same six months were fully \$10,087.55.

The foregoing is plain talk. The city officials made a blustering challenge for this paper to look up its record on the waterworks, believing that such a bluff would disarm us, but it just gave us a weapon. We find they were trying to make the people believe that they had saved from the waterworks receipts a profit of \$21,000 when, as a matter of fact, the water system ran behind over \$10,000 and it ran behind even without considering the interest on the money collected from the people, or the sinking fund for depreciation of the plant. Counting all these things, and they should be considered, the waterworks runs behind almost \$50,000 for the first six months. Just get any business man to figure

the city fathers say let the people living in Ogden at that time pay the mortgage. The city fathers also say the water system will stand for about ten years. Let the city council at that time raise the money to rebuild it. That is how our mayor and city officers feel about it. All our Democratic city administration wants just now is to bamboozle the people into the belief that the waterworks makes a profit when it pays out more money than it receives. Here are the facts:

**Total Expenditures for all purposes for the waterworks. \$42,335.74**  
**Actual cash receipts for water rentals and waterworks supplies 32,248.19**

**Actual loss for six months \$10,087.55**

## WATER DEAL NOT MADE PUBLIC

DOCUMENT KEPT FROM THE PEOPLE DURING ELECTION.

A. W. Agee Discloses a Clandestine Act Committed in Connection With the Gill Purchase.

To the Ogden Standard: According to the statement of the waterworks department, the rentals for the first six months amount to \$27,086.16, but of this \$4,833.21 remain uncollected. In other words, nearly eighteen per cent of the total rentals for the first six months remain uncollected. This is nearly one-fifth of the entire earnings. This seems to be a very large percentage. No private concern could afford to lose so large a percentage of its gross earnings. By the way, it would be interesting to know who owes this large sum for water furnished by the city.

I observe from the statement that \$300 has been expended in connection with the Taylor's Canyon litigation which was pending between the Ogden City Waterworks company and the Union Pacific Railroad company at the time of the transfer of the system. Now will the city attorney advise the taxpayers what has been done to protect the rights of the city to the water of this canyon? Some months ago a stipulation was filed extending the time for filing testimony, until August 1, 1909, but no steps had been taken to have the city substituted in place of the waterworks company. I assume that the \$300 has been paid to Mr. Richards, and from my association with him, I have no doubt that he has been ready at all times to proceed with the case, and that, if allowed to do so, he will fully protect the rights of the city. But it looks to me like the administration, after paying twice for the Gill land, which is of little or no value aside from the water rights which might be acquired with the case, and let the railroad company hold this valuable right without any contest.

The entire transaction concerning this land has been, to say the least,

## RELIEF SOCIETY OUTING.

One of the most enjoyable occasions of the season was the outing of the Relief society of the North Weber stake, held in the beautiful Hermitage grove in Ogden canyon last Thursday.

Most of the officers and members assembled around the tables at noon and partook of a delicious luncheon. At 2:30 the merry-makers repaired to the pavilion, where a race was indulged in. The features of the dancing were a prize waltz which was won by Mrs. Stella Ballinger and Mrs. Julia E. Parry, and a grand march participated in by ladies over sixty years of age, of whom there were twelve couples.

After the dancing, the crowd re-entered the grove, where a number of foot races were contested for by the sisters from the different wards, the winners being from the Third ward, Lynne, Taylor, Farr West, West Weber and Marriott. Early in the evening the pleasure-seekers returned to their homes, tired but happy, each one saying that the day was one which would long be remembered. There were between 400 and 500 persons present during the day.

## FLAG PARTY.
